

The industrial solution for manufacturers in the cosmetic industry

casycosmetics

casycosmetics is a collection of modules for the chemical, pharmaceutical and cosmetics industry.

Also for these sectors, CASYMIR has been validated according to GAMP 5, GxP, GMP / FDA. In addition to the requirements of IFRA, REACH, VOC und 21 CFR Part 11 (FDA), casycosmetics also complies with the EU Cosmetics Regulation 1223/2009

Experience is our competence casymir.com

CASYMIR

With our long industry experience, we have developed CASYCOSMETICS, an ERP software that is tailored to the requirements of companies in the cosmetic industry. CASYCOSMETICS offers a transparent representation of the entire process chain in all operational areas and is consequently batch-oriented. Certifications according to GxP, GAMP V, IFRA, REACH, VOC, FDA and other national regulations are possible and have been already implemented by our customers.

INCI declarations integrated

casycosmetics

HIGHLIGHTS

- Validatable system
- Update procedure to maintain validation
- INCI administration
- Calculation of product properties (drug content, toxicology)
- Active substance and substance management
- Logging of the production processes
- Stability database to monitor product stability

RELEVANT FUNCTIONS

- Validatable system
- Traceability of all data and processes
- Recipe management
- Flexible creation and management of certificates
- Ingredients, properties, areas of application of articles
- Acquisition and management of measurement data
- Easy management and documentation of free goods
- Flexible control of production facilities
- Ingredient management
- Support for order and stock production
- Calculation of product properties
- Integrated LIMS functions
- Stability database for product stability monitoring
- Secure product related warehouse management
- Maintenance of production facilities
- Multilevel production and release procedures
- Deposit of specifications
- Continuous traceability in all relevant areas
- Consistent workflow management
- Country- and customer-specific labeling with barcode GS1-128 (EAN)
- Batch traceability and quality management
- Customs Interface for Import and Export (CH)
- Complaints management
- Depiction of by-products
- Integrated weighing system
- Revision and release security
- Integration of document management systems
- Consignment stock and foreign production
- Audit Trail
